

Commercial Anti-Slip

Commercial Anti-Slip

Heavy Duty Covers

Our range of effective and durable anti-slip covers is designed to improve grip and safety on all stairs, steps, ramps and floors in and around commercial facilities. Developed from our Industrial range, they are the toughest Commercial products available.

- Manufactured by Walksafe from a strong galvanised steel backing plate coated in a high strength epoxy resin encapsulating a hard wearing aggregate.
- Extremely tough, durable and resistant to almost all liquid spills, scuffing and abuse. Will not peel off or delaminate.
- Suitable for all commercial facilities including offices, schools, sports grounds, shopping centres etc.
- Available in almost any size, shape or colour combination required to suit your particular application.
- R13 anti-slip rating (the highest possible) ensures compliance with all relevant Australian Standards and Building Codes.
- Easy and quick to install on all surfaces including steel checker plate, concrete, timber etc. Minimum surface preparation required and units are trafficable immediately after installation. No fumes!
- On site recommendations and quotations available by a Walksafe representative in most areas, free of charge. Installation guidelines and hardware available.

Aluminium Stair Treads

Our range of attractive, effective and durable aluminium stair treads is designed to improve grip and safety on all types of stairs found in commercial facilities. They also protect soft floor coverings such as carpet from wearing.
